Mental Health Series

According to the Illinois Department of Health, suicide is the 10th leading cause of death among Americans, and the 3rd among young adults in Illinois. While suicide is recognized as a chronic epidemic, and mental health issues affect countless individuals and families, these topics are often clouded by stigma, myth, and shame. Over the next few months, the library will be partnering with local organizations to host several programs intended to raise awareness, reduce stigma, and provide access to resources for those at risk, their families, and the community.
